

Professional Electric Technology Energy Services, realizing the need for recycling fluorescent lamps has researched the disposal and recycling industry to find the most economical and safe means to handle potentially dangerous items. Through our intensive research we have found that the best option is recycling. Thus, we have contracted to be the authorized representative in the Western Montana area. This union, along with state registrations, qualifies us to recycle lamp, computers, monitors, and televisions and other electronic equipment in a fully approved manner meeting all EPA requirements.
